

Invitation to participate

Biomedical researchers needed

Dear Biomedical researchers,

We are inviting UK-based Biomedical researchers to complete a survey on human sample use in research. The survey is for **any UK-based researchers in academic or industrial Biomedical research**. The survey will form part of the research project: **'Barriers to using an online directory to identify human samples for research'**.

The results of the survey will inform the development of [the UKCRC Tissue Directory and Coordination Centre](#), a national initiative which seeks to improve human sample access in the UK.

The survey will take approx. 7min to complete and you will have the option to be entered into a prize drawer for a voucher at the end of the survey.

[Take the Survey](#)

For more information on the research please read the [participant information sheet](#) attached. If you have any questions or queries about the research please email contact@biobankinguk.org.

Best wishes,

Emma Lawrence
